Cassiopeia
~~~~~~~~

~verse I~
Oh my love
If dreams are all we have
Racing silently, thoughts inside of me brighter than the sun
Spinning endlessly, come and find me again

~chorus I~
You've captured my soul
Cassiopeia, take me to the stars

~verse II~
In my heart
The space in which we live
Distant galaxies, feed my fantasises lighting up the sky
Star crossed memories, burning brightly again

~chorus II~
You've captured my soul
Cassiopeia take me to the stars
Yes you've captured my soul
Cassiopeia take me to the stars
Oh to the stars...

~strings~

~verse III~
We'll collide in heaven
Moon kissed and out of time
We'll collide in heaven
Stardust with a love divine
Racing silently, thoughts inside of me brighter than the sun
Star crossed memories, come and find me again

~chorus III~
You've captured my soul
Cassiopeia, take me to the stars
Yes you've captured my soul
Cassiopeia, take me to the stars
You've captured my soul
Cassiopeia, take me to the stars
Oh the stars...
