

# Circles

~~~~~

~verse I~

It's the middle of the day  
All my hopes and dreams, I feel them slip away  
You were everything I wanted  
Now there's no way back, and so much left unsaid

~bridge I~

In the afterglow of love (afterglow of love)  
Let me take these final moments to tell you that -

~chorus I~

I'm just walking in circles, so there's no point following me  
I'm just trying to find my way, to be free  
I'm just walking in circles, so there's no point following me  
Chasing rainbows, yes it's true... but babe I miss you....

oh, miss you babe....

~verse II~

So I guess this is goodbye  
Every time we talk, I just break down and cry  
Is there anything you need?  
In spite of everything I want you to succeed

~bridge II~

In the afterglow of love (afterglow of love)  
Let me take these final moments to tell you that -

~chorus II~

I'm just walking in circles, so there's no point following me  
I'm just trying to find my way, to be free  
I'm just walking in circles, so there's no point following me  
Chasing rainbows, yeah it's true... but babe I miss you....

~solo~

~bridge III~

In the afterglow of love (afterglow of love)  
Let me take these final moments (moments, moments, moments)  
To tell you that -

~chorus III~

I'm just walking in circles, so there's no point following me  
I'm just trying to find my way, to be free  
I'm just walking in circles, so there's no point following me  
I'm just trying to find my way, to be free  
I'm just walking in circles, so there's no point following me  
Chasing rainbows, yeah it's true... but babe I miss you....

Miss you babe....
