

Messiah

~~~~~

~intro~

In my dreams I saw a face  
A prophecy divine  
Through a clouded haze, he spoke to me  
Of a time, gone by...

~verse I~

Hiding from the sun  
Never felt the air so dry, it's burning my eyes  
Suddenly I see, the shadow of holy man walk towards me (and he said)  
I'm right here if you want me, I'm right there if you need me  
Just give me a sign, glory be thine

~chorus I~

Messiah, the fire burns inside... it's sanctified  
Messiah, and in this world you made... we shall be saved

~verse II~

I stood and looked around  
Surely in this wilderness I'd never be found  
But people came to see, a thousand eyes just staring at me, so I said  
I'm right here if you want me, I'm right there if you need me  
Just give me a sign, glory be thine

~chorus II~

Messiah, the fire burns inside... it's sanctified  
Messiah, and in this world you made... we shall be saved  
Messiah, oh let the light of truth, come shining through

~middle VIII~

Listen to the once and future king  
Bring an end to suffering  
Lead us to the path of righteousness, we pray

~chorus III~

Messiah, the fire burns inside... it's sanctified  
Messiah, and in this world you made... we shall be saved  
Messiah, oh let the light of truth, come shining through  
Messiah, we'll build a sacred shrine, to a love Divine

Messiah, the fire burns inside... it's sanctified  
Messiah, and in this world you made... we shall be saved  
Messiah, oh let the light of truth, come shining through  
Messiah, we'll build a sacred shrine, to a love Divine
