

## Save Me

~~~~~

~verse I~

Hello loneliness, my friend  
It's good to talk to you once again  
Things are much the same here  
Inside this dark, question mark, of a future not for me

~chorus I~

Save me, save me  
Oh lord, please save me from what I've become

~verse II~

It's so cold here on the floor  
And no one comes around any more  
It's been a long time since I saw the light  
Now it's right where I want it to be

~chorus II~

Save me, save me  
Oh lord, please save me from what I've become  
Save me, save me  
Oh lord, my life has just begun

~strings~

~middle VIII~

And the sleep, it won't ever ever come  
And the sleep, it won't ever ever come  
No the sleep, she won't ever ever come

~chorus III~

Save me, save me  
Oh lord, please save me from what I've become  
Save me, save me  
Oh lord, my life had just begun  
Save me, save me  
Oh lord, I just need someone.... I need someone...
