Guitarist Dave Kilminster's new album out today Stateside

Written by Matt

Tuesday, 30 September 2014

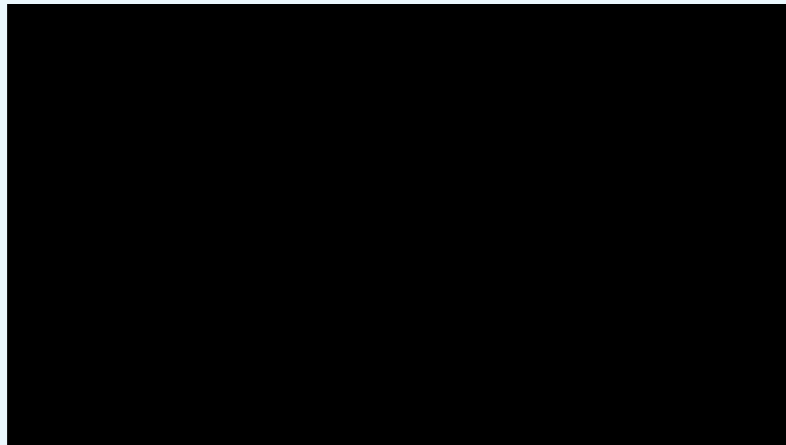

In our [interview with Dave Kilminster](#) last November, the guitarist who has now firmly made himself a key part of Roger Waters' touring band, wowing many fans with his performances each night during The Wall tour, mentioned some solo work.

He told us: "Last April I started recording another solo album (the follow up to 'Scarlet - The Directors Cut')... all the drums, bass, rhythm guitars and acoustics are done, so it's just solos and vocals to do... and I'll probably score some string parts too. I'd love to finish that early next

year..."

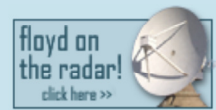

Bringing things right up to date, this new album, '...and THE TRUTH will set you free...' is released today in North America, having arrived last week in Europe.

Dave has put together a short promo video looking at the recording of the album, which you can see below. We know he has many fans amongst the Brain Damage readership, so for those of you who want to snap up his new album, you can do so through these links: [Amazon.com](#), [Amazon Canada](#), [Amazon UK](#), [Amazon France](#), [Amazon Germany](#), [Amazon Espana](#) and [Amazon Italy](#). For those who prefer their music digital, you can also get it through [iTunes](#) now.
